

HOW TO BUILD A FORT

Coach Mo's step-by-step guide for your fort class

What You Need

- ☐ 2 chairs (or a couch + table)
- ☐ 1 big blanket or bedsheet (roof)
- ☐ Clothespins or heavy books
- ☐ Pillows & cushions
- ☐ A soft rug or blanket for the floor
- ☐ A flashlight or string lights
- ☐ Books & a stuffed animal
- ☐ A grown-up helper (your mommy!)

Your finished fort!

Build It Step by Step

1

Set up the posts

Put 2 chairs back-to-back, a little apart — or use the couch and a table. These hold up your roof.

✓ Tip: The taller the posts, the more room inside!

2

Drape the roof blanket

Lay your big blanket or bedsheet over the top of the chairs so it makes a roof.

✓ Tip: A bedsheet is light and easy for the roof.

3

Hold it up

Clip the blanket to the chairs with clothespins, or put heavy books on the ends so it won't slide off.

✓ Tip: Chip-bag clips work great too!

4

Make a soft floor

Lay a rug or blanket on the floor inside so it's comfy to sit on.

✓ Tip: Take your shoes off before you go in.

5

Add pillows & cushions

Bring in pillows and couch cushions to lean on and get cozy.

✓ Tip: Make a pillow wall to block the wind (and be extra snug).

6

Turn on the lights

Hang string lights or bring a flashlight so your fort glows inside.

✓ Tip: A little lantern makes it look magical.

7

Bring books & a stuffie

Add a stack of books and a stuffed animal — now it's a reading fort!

✓ Tip: Pick your favorite book to read first.

8

Add a flag & a name

Put a paper flag on top and make a sign with your fort's name. Then invite your mommy in!

✓ Tip: Knock-knock before you go in — even your own fort!

Your fort is done — now read, play, and be cozy! Go Team MO!
