

MO GAME DAY PLAYS

12 real basketball plays with court diagrams

Coach: _____

My Team

Write each of your real players next to their number, then read the plays with their names!

1

Point Guard

2

Shooting Guard

3

Small Forward

4

Power Forward

5

Center

How to Read the Plays

1

A player (numbers 1-5)

A rival

Ball

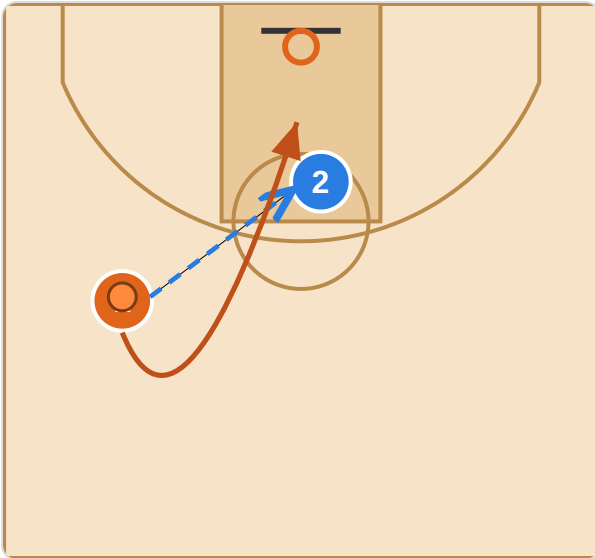

--- Pass (dashed blue)

Player runs (orange arrow)

Screen / pick

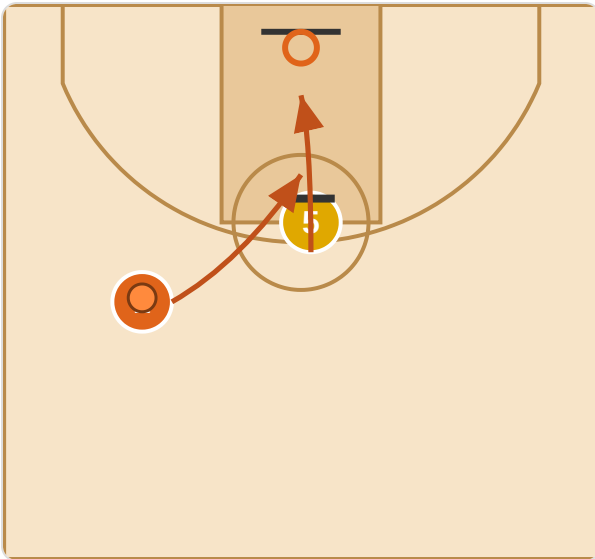

1 Give & Go

Easiest play in basketball!

The 1 (point guard) passes to the 2, then sprints straight to the hoop. The 2 passes it right back for an easy layup.

Coach tip: The cut has to be FAST and surprise the defender. Walk slow, then explode.

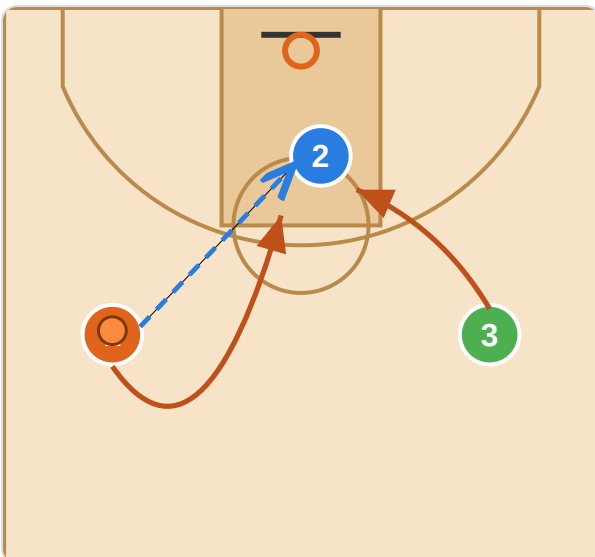

2 Pick & Roll

A play every team needs.

The 5 (center) sets a screen next to the 1's defender. The 1 dribbles tight off the screen. Then the 5 turns and 'rolls' to the basket for a layup.

Coach tip: The screener stands STILL and strong — feet planted. Dribbler goes shoulder-to-shoulder off it.

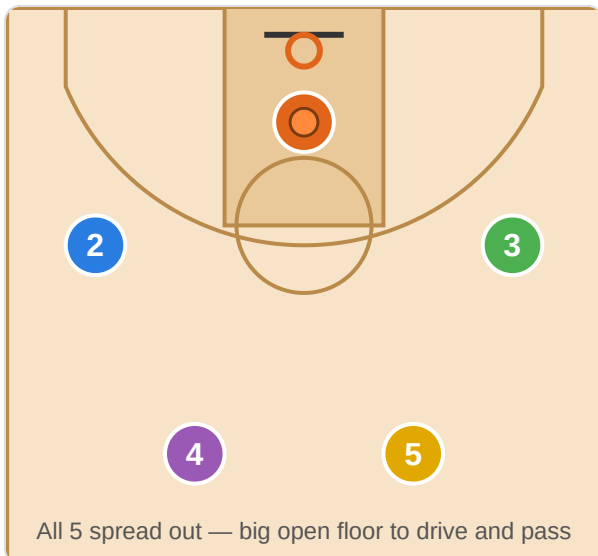

3 Pass & Cut

Keep the ball moving.

Whenever a player passes, they cut hard to the basket and a teammate fills the empty spot. The ball and players never stop moving, so the defense gets tired and confused.

Coach tip: Don't stand and watch your pass — MOVE. A moving team is really hard to guard.

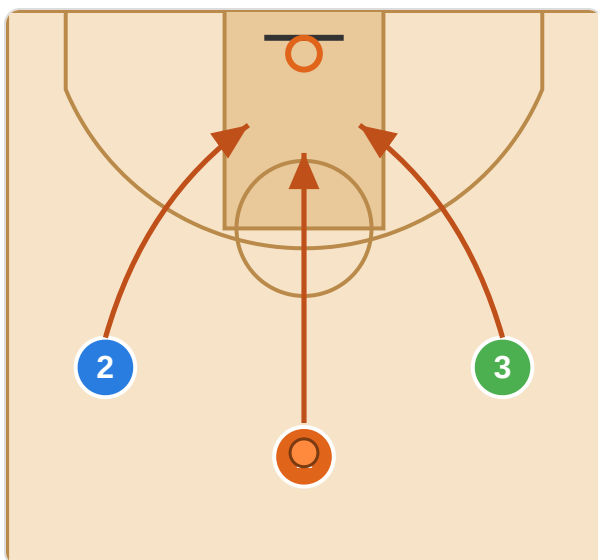

4 5-Out Spacing

Where everyone stands on offense.

All five players spread around the three-point line in five spots. This opens up the middle so anyone can drive to the hoop or pass to a cutter.

Coach tip: Spacing is king. Stay in your spot until it's time to cut — crowding kills the offense.

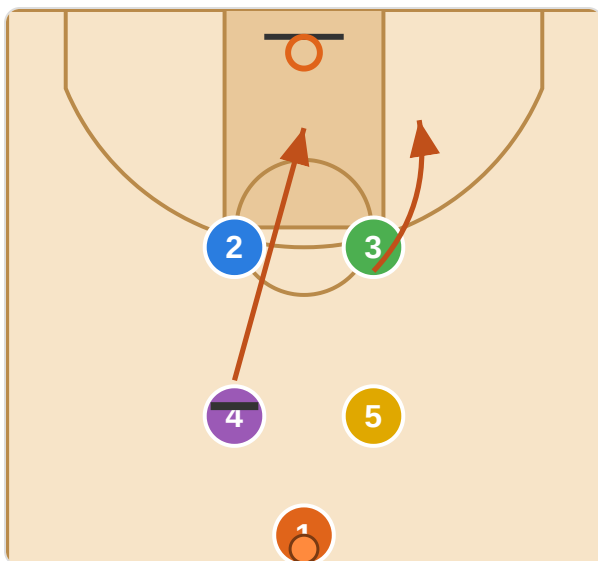

5 Fast Break

Score before defense is ready!

The moment the 1 gets the ball, push it up the middle fast. The 2 and 3 sprint down the sidelines (the wings). Get an easy basket before the other team sets up.

Coach tip: Run wide and run FAST. The middle player looks to pass or finish.

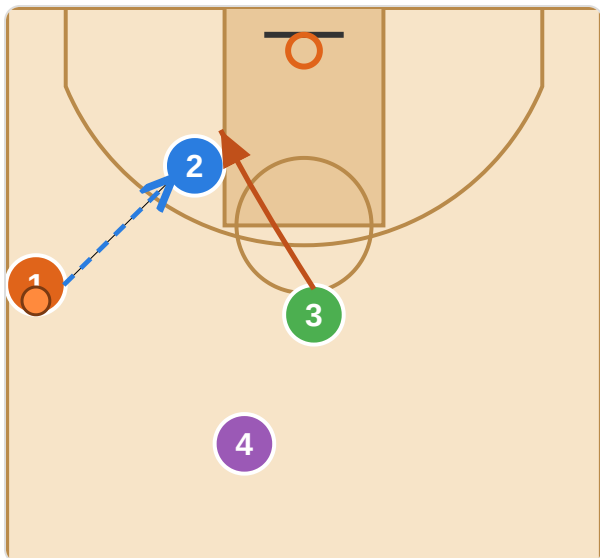

6 Under-Hoop Inbounds

Passing it in under the basket.

Four players make a box. On the ball-slap, the 4 screens so the 2 can cut open to the hoop, while the 3 pops to the corner. The 1 hits whoever's open for a quick shot.

Coach tip: Time it on the ball-slap. The passer counts to 5 in their head — don't get a 5-second call!

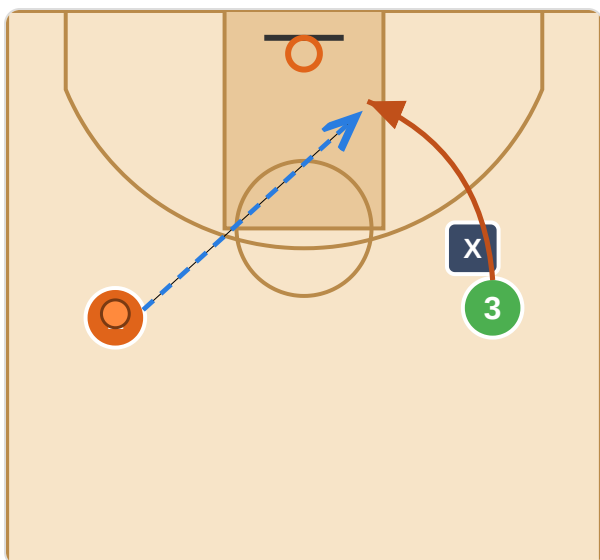

7 Sideline Inbounds

Passing in from the side.

The 1 steps out of bounds with the ball. Teammates get open with quick cuts. Pass to the closest open player to safely get the ball in, then run your offense.

Coach tip: The safest pass is the best pass here. Don't force a long one.

8 Backdoor Cut

Beat a defender who's too close.

A defender (X) is hugging the 3 to stop the pass. So the 3 cuts BEHIND the defender straight to the hoop, and the 1 passes it there for a layup.

Coach tip: Watch the defender. When they turn their head, that's when to cut backdoor.

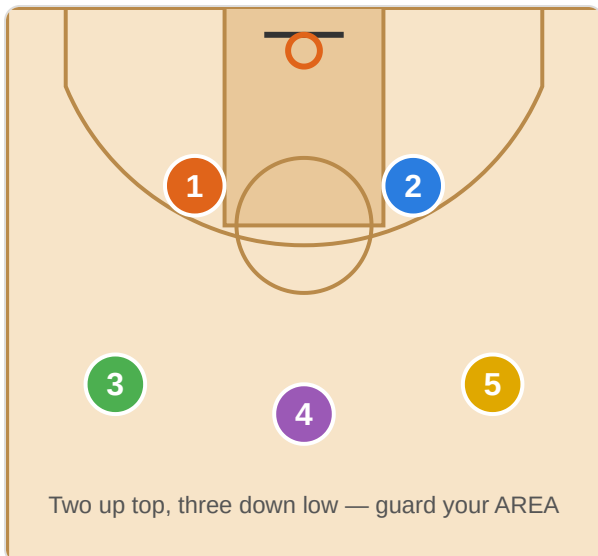

9 Man-to-Man Defense

Guard your own player.

Each of the five defenders picks one rival (X) and guards only them. Stay between your rival and the basket, stay low, and don't let them drive past.

Coach tip: Point at your rival and call them out loud. Know who's yours before the ball moves.

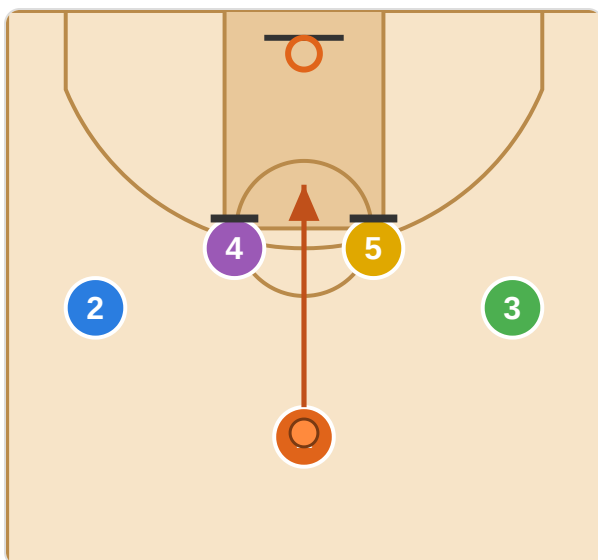

10 2-3 Zone Defense

Guard an area, not a person.

Two defenders play up high (1 and 2) and three play low (3, 4, 5) in a zone shape. Each guards their AREA. When the ball comes to your area, take the closest rival.

Coach tip: Move together like a net when the ball moves. Always keep your hands UP.

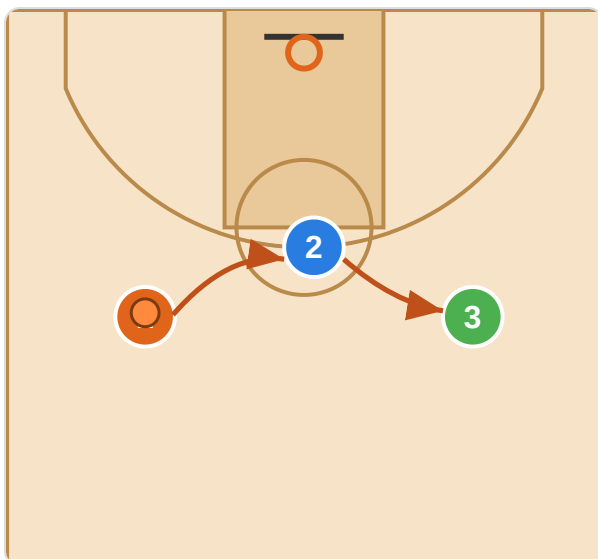

11 Horns Set

A smart starting shape.

The 1 has the ball up top with the 4 and 5 set as two high screens (the 'horns') and shooters (2 and 3) in the corners. The 1 uses either screen to drive or pass.

Coach tip: Read the defense — go toward whichever side gives you more room.

12 Hand-Off Weave

Trade the ball as you run by.

Players run toward each other and hand the ball off closely as they pass, then loop around. It's a moving weave that keeps the defense chasing and opens up drives.

Coach tip: Hand it off gently and shield it with your body. Set a little screen as you leave.

Run the plays, have fun, Go Team! 🏀
